

# Code of Federal Regulations

## Sec. 33.82

Part 33 AIRWORTHINESS STANDARDS: AIRCRAFT ENGINES	
Subpart F--Block Tests; Turbine Aircraft Engines	

## Sec. 33.82

### [General.]

[Before each endurance test required by this subpart, the adjustment setting and functioning characteristic of each component having an adjustment setting and a functioning characteristic that can be established independent of installation on the engine must be established and recorded.]

Amdt. 33-6, Eff. 10/31/74
